# An Introduction to Venture Capital

Granite Ventures 

# Granite representatives

---

- ◆ **Sam Kingsland – Managing Director**
- ◆ **Brian Panoff – Vice President**
- ◆ **Prof. John Villasenor, Ph.D. – Strategic Technical Advisor**

# Introduction to Granite Ventures

---

- ◆ **Founded in 1992**
- ◆ **Granite has 9 investment professionals**
- ◆ **Over \$1B under management**
  - Recently raised a new \$350M fund
- ◆ **Early-stage technology focus**
- ◆ **Hands-on investors**
- ◆ **Excellent long-term results**

# Intro to venture capital

---

- 1) Options for financing a startup**
- 2) How does the venture industry work**
- 3) Launching a startup**
- 4) The investment process**

# Options for financing a startup

## Internal

---

- ◆ **Your personal savings**
- ◆ **Internal cash flow**
  
- ◆ **You retain control**
- ◆ **You receive 100% of the upside, but bear all the risk of failure**
- ◆ **Limited by available savings/cash flow**
- ◆ **You don't know everything....might not seek external support**
- ◆ **Difficult to do for some technologies/business models**

# Options for financing a startup

## External debt

---

- ◆ **Debt financing can include:**
  - Credit cards
  - Loans from family members
  - Bank loans
- ◆ **Lenders don't own any of the company**
- ◆ **Lenders receive a fixed rate of return**
  - Loan amount or “principal” must be paid back
  - Claim on the company's (or personal) assets in event of default
- ◆ **Limited by lack of assets**
- ◆ **Lenders are typically passive investors**
- ◆ **Convertible venture debt**

# Options for financing a startup

## External equity

---

- ◆ **Equity is ownership exchanged for money**
- ◆ **Equity sources can include:**
  - You
  - Friends and family
  - Wealthy individuals (Angels)
  - Venture capital firms
- ◆ **Share the upside and the risk**
- ◆ **Flexible**
- ◆ **Doesn't need to be paid back**
- ◆ **Illiquid**
- ◆ **Share or cede control**

# Why use venture capital?

---

- ◆ **Provide large amounts of capital**
  - Average start-up consumes 10's of millions of dollars
- ◆ **Provide advice**
  - Extensive experience in building start-ups
- ◆ **Offer introductions and relationships**
  - Potential customers
  - Partners
  - Other investors
  - Acquirers
  - Management talent
- ◆ **Reputation value to customers, employees, and partners**
  - Access to additional capital
  - Rigorous and independent evaluation of business prospects

# Geographic breakdown of venture capital

Source: NVCA

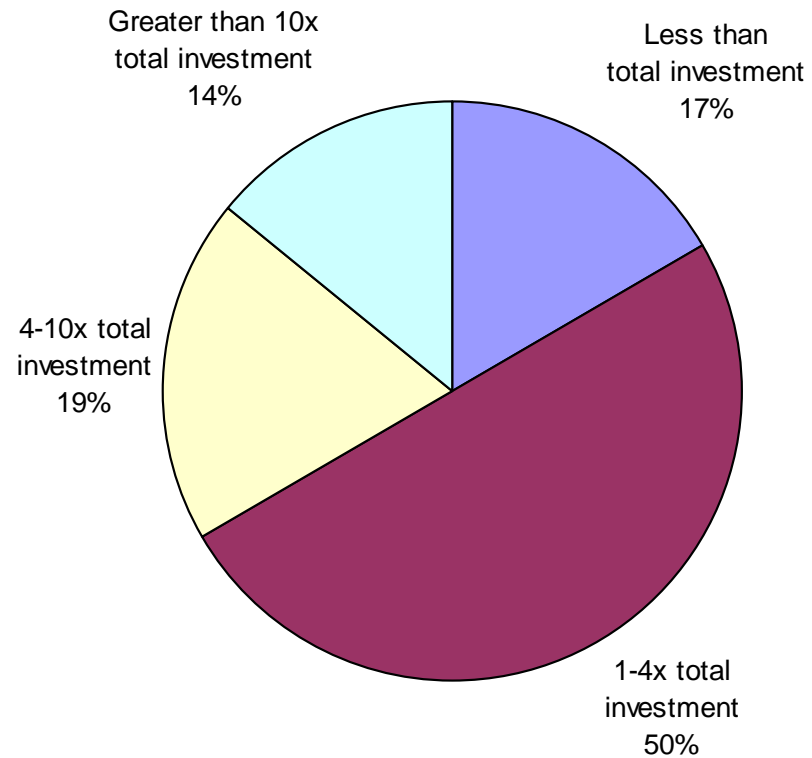

# How do VCs make money?

---

- ◆ **VCs raise money from their own investors or “limited partners”**
  - Pension funds, university endowments, wealthy individuals, etc.
- ◆ **VCs to invest this money in a set of companies (the “portfolio”)**
  - Stage
  - Risk profile
  - Sector
  - Length of time to realize return or “liquidity”
- ◆ **VCs realize a profit when their ownership is sold.**
  - Acquisition by a larger company
    - Example: Purchase of Skype by Ebay in Sept. 2005
  - Initial public offering (IPO) on a stock exchange
    - Example: Google’s in Aug. 2004
- ◆ **The success of a venture capital company depends on the success of its portfolio companies**

# Q1 2006 venture M&A Outcomes

---

Source: Thompson Venture Economics and the NVCA

# Where do technology startups come from?

---

## ◆ **Academia**

- Yahoo and Google were started by Stanford graduate students
- Broadcom was started by an UCLA professor and graduate student

## ◆ **Teams from established companies**

- Intel was started by a group of engineers from Fairchild Semiconductor
- Siebel was started after Tom Siebel left Oracle and then Sybase

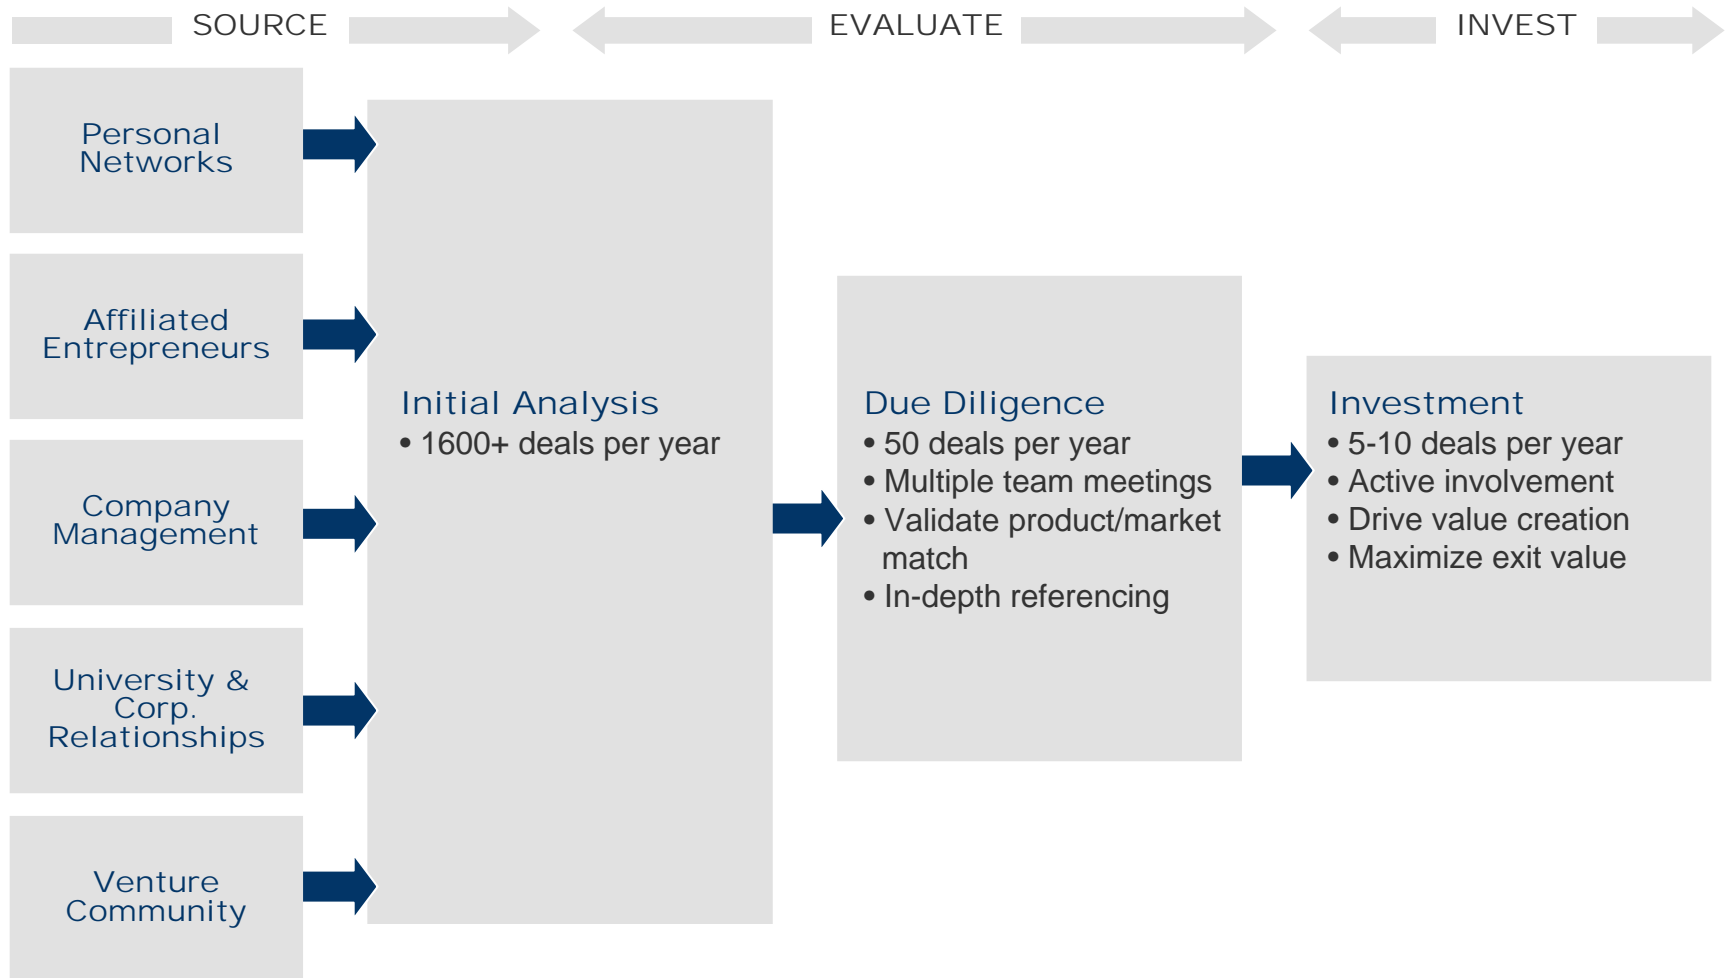

## ◆ **Spin outs from established companies**

## ◆ **Government labs**

## ◆ **Individual entrepreneurs**

- Oracle
- Dell

# The investment funnel

# What we look for in start-ups

---

## Market

- ◆ Growing
- ◆ Changing
- ◆ Undefined

## Team

- ◆ Great entrepreneurs
- ◆ Leaders in their field
- ◆ Add complementary skills

## Product

- ◆ Proprietary technology
- ◆ Sustainable advantage
- ◆ Follow-on products

## Competition

- ◆ Be a leader in a new space
- ◆ No frontal assaults on industry leaders
- ◆ Avoid start-up clutter

## Financial

- ◆ Capital efficient
- ◆ Scalable business model
- ◆ Flexible infrastructure

## Terms

- ◆ Attractive valuation
- ◆ Clean structure
- ◆ Strong co-investors

# Deciding to launch a start-up

---

## Market

- ◆ Growing
- ◆ Changing
- ◆ Undefined

- ◆ Network with customers and with the leaders of the market
- ◆ Build market models from top-down and bottom-up
- ◆ Become an expert in your marketplace

# Deciding to launch a start-up

---

## Market

- ◆ Growing
- ◆ Changing
- ◆ Undefined

## Team

- ◆ Great entrepreneurs
- ◆ Leaders in their field
- ◆ Add complementary skills

- ◆ Demonstrate your ability to make progress through your creativity and tenacity
- ◆ Network with and affiliate leaders in the industry
- ◆ Recruit people who complement your skillset, experience
- ◆ Recruit people with a track record of success

# Deciding to launch a start-up

---

## Market

- ◆ Growing
- ◆ Changing
- ◆ Undefined

## Team

- ◆ Great entrepreneurs
- ◆ Leaders in their field
- ◆ Add complementary skills

## Product

- ◆ Proprietary technology
- ◆ Sustainable advantage
- ◆ Follow-on products

- ◆ Prove out the unique aspects of your technology
- ◆ Make sure you handle your IP properly
- ◆ Explore your roadmap for extending your product line and competitive advantage

# Deciding to launch a start-up

---

## Competition

- ◆ Be a leader in a new space
  - ◆ No frontal assaults on industry leaders
  - ◆ Avoid start-up clutter
- 
- ◆ Study the competition
  - ◆ Understand the industry dynamics and how they relate to your opportunity
  - ◆ Remember that competitors will not stand still

# Deciding to launch a start-up

---

## Competition

- ◆ Be a leader in a new space
- ◆ No frontal assaults on industry leaders
- ◆ Avoid start-up clutter

## Financial

- ◆ Capital efficient
- ◆ Scalable business model
- ◆ Flexible infrastructure

- ◆ Build a detailed financial model for your business
- ◆ Spend as little money as possible
- ◆ Avoid long-term commitments

# Deciding to launch a start-up

---

## Competition

- ◆ Be a leader in a new space
- ◆ No frontal assaults on industry leaders
- ◆ Avoid start-up clutter

## Financial

- ◆ Capital efficient
- ◆ Scalable business model
- ◆ Flexible infrastructure

## Terms

- ◆ Attractive valuation
- ◆ Clean structure
- ◆ Strong co-investors

- ◆ Set out with reasonable expectations
- ◆ Don't entangle business with personal relationships
- ◆ Don't entangle business with non-standard structures
- ◆ Investor reputation counts

# What to look for in a VC (besides \$)

---

- ◆ **Strong track record**
- ◆ **Good reputation**
- ◆ **Good cultural match for your team & approach**
- ◆ **Active and engaged enough to provide value**
- ◆ **Mature enough to avoid micromanagement**
- ◆ **Relevant experience (sector, technology, customer base, etc.) and networks**
- ◆ **Complementary portfolio of companies**

# The investment process

---

- ◆ **Create and refine a pitch**
- ◆ **Get lots of advice and feedback....refine**
- ◆ **Be prepared for detailed diligence**
  - Market models
  - Technical papers and analysis
  - Financials
  - Customer feedback
- ◆ **Partner meeting**
- ◆ **Term sheet**
- ◆ **Legal work to close deal**

# Some key terms: term sheet

---

- ◆ **A term sheet lists the main terms and conditions associated with a potential investment**
  - Valuation
  - Rights and preferences of Preferred Stockholders
  - Board representation
  - Control provisions
- ◆ **The first term sheet is the hardest to obtain**
  - Sometimes a “no-shop” will be incorporated
- ◆ **Term sheets are non-binding and serve to finalize negotiations**

# Some key terms: shares of stock

---

- ◆ **Ownership in a company is measured in shares of stock**
  - The absolute number of shares is less important than the percentage
- ◆ **Not all types or “classes” of stock are created equal**
  - Common shares are held by company founders, employees, etc.
  - Preferred shares are held by investors and possess special rights
    - Liquidation preferences (first to get money back)
    - Voting agreements (require consent for certain company transactions)
    - Board seat rights
    - These rights and preferences allow the VC to protect its investment.
  - There can be various versions or “series” of preferred shares (Series A, Series B, etc.) that differ in purchase date, price, and rights
- ◆ **In the case of an IPO (or in some very lucrative acquisitions) all classes of stock convert to common shares**

# Some key terms: stock options

---

- ◆ **Stock options are rights to purchase stock in the future at fixed price determined when the option is “issued” or granted**
- ◆ **Options motivate employees to add value to the company by enabling them to share in success**
  - Options help align the interests of employees with founders and investors
- ◆ **Granted options usually “vest”, or become available for use, according to a schedule**
  - Options often vest over four years
- ◆ **Just like with stock shares the number of options is less important than the percentage**

# Some key terms: valuation

---

- ◆ **Pre-money valuation: the value of the company prior to an investment**
- ◆ **Post-money valuation: the value of the company after the investment**
- ◆ **It is important to have an appropriate valuation for the company**
  - The lower the valuation, the more ownership you give up
  - The higher the valuation, the more difficult it is to raise money
- ◆ **The company's valuation should be evaluated with its long term capital requirements**

# Example of valuation and dilution

---

|  | <b>%</b> | <b>Value \$M</b> |
|--|----------|------------------|
| <b>Founder's Pre-Money Ownership %</b> | 100%     | ?                |
| <b>Series A Pre-Money Valuation</b>    |          | \$5              |
| <b>Series A Investment</b>             |          | \$5              |
| <b>Series A Post-Money Valuation</b>   |          | \$10             |
| <b>Series A Investor Ownership</b>     | 50%      | \$5              |
| <b>Founder's Post-Money Ownership</b>  | 50%      | \$5              |

# Example of valuation and dilution (cont.)

|  | %    | Value \$M |
|--|------|-----------|
| <b>Founder's Pre-Money Ownership %</b> | 100% | ?         |
| <b>Series A Pre-Money Valuation</b>    |      | \$5       |
| <b>Series A Investment</b>             |      | \$5       |
| <b>Series A Post-Money Valuation</b>   |      | \$10      |
| <b>Series A Investor Ownership</b>     | 50%  | \$5       |
| <b>Founder's Post-Money Ownership</b>  | 50%  | \$5       |
| <b>Series B Pre-Money Valuation</b>    |      | \$20      |
| <b>Series B Investment</b>             |      | \$5       |
| <b>Series B Post-Money Valuation</b>   |      | \$25      |
| <b>Series A Investor Ownership %</b>   | 40%  | \$10      |
| <b>Series B Investor Ownership %</b>   | 20%  | \$5       |
| <b>Founder's Post-Money Ownership%</b> | 40%  | \$10      |
| <b>Total</b>                           | 100% | \$25      |

# Some key terms: Board of Directors

---

- ◆ **The Board of Directors governs the company and often includes representatives of founders, management, and investors**
  - May also include an independent Board member from industry
- ◆ **After a raising venture capital, you will probably be a minority on the Board**
  - Increases the importance of trust and relationship with investors
- ◆ **The Board typically meets monthly or quarterly**
  - Reviews progress
  - Makes important decisions
- ◆ **The Board stewards the company and is legally responsible**

# Sample term sheet

## The Company

**New Securities Offered:** 7,000,000 shares of Series A Preferred (the "Preferred")

**Aggregate Purchase Price:** \$7,000,000

**Purchase Price Per Share:** \$1.00 per share of Preferred (implied pre-money, full valuation of \$5.0 million)

**Post-Financing Capitalization:**

|                         |           |       |       |
|-------------------------|-----------|-------|-------|
| Common Stock -          |           |       |       |
| Founders                | 3,200,000 | 26.7% |       |
| Stock Option Program    | 1,800,000 | 15.0% |       |
| Preferred Stock -       |           |       |       |
| Investors               | 7,000,000 | 58.3% |       |
| Total Common Equivalent |           |       | 100.0 |

#### Rights, Preferences and Privileges of Preferred:

(1) **Dividends:** 8% non-cumulative dividend per annum, with preference to any dividend on the Common, when declared by the Board. The Preferred shall also participate pro rata (on a Common equivalent basis) in any dividends paid on the Common.

(2) **Liquidation Preference:** Upon a liquidation of the Company, the Preferred will receive the Purchase Price Per Share plus any declared and unpaid dividends.

Remaining assets distributed pro-rata on an as-converted basis among the Preferred and Common. A consolidation, merger or other transaction where the shareholders of the Company do not continue to hold at least a majority interest in the Company or successor entity, or a sale of all or substantially all of the

- ◆ Non-binding
- ◆ Valuation is stated on a per share and total basis
- ◆ Capitalization illustrates impact on ownership
- ◆ Key rights and terms are spelled out

# Sample term sheet (cont.)
